Sensor Part # 10012626

Gearbox 10012626 Replaces Gearbox 10009010  
Speed Pickup Sensor Installed with Factory Precision  
Contact Sonny's Sales Department for More Info

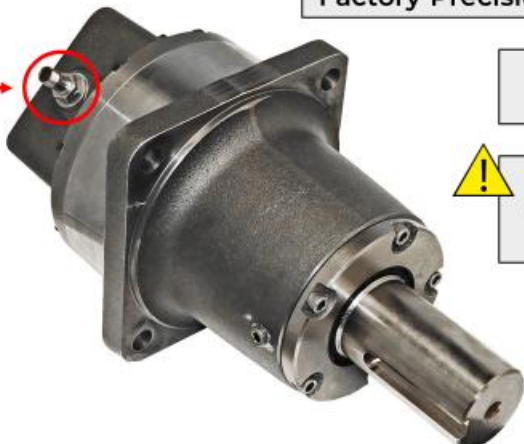

### INNOVATIVE TECHNOLOGY IS THE NEW STANDARD

Why settle for the rest when the innovative HĒCO Gearbox comes with a standard factory precision installed Speed Pickup Sensor (10012626) that is plug-and-play ready to use with the HĒCO 16SWC Speed Display Controller Unit (10012624). This technology standard promotes accurate speed readings eliminating errors and reducing any downtime from field installed Sensors; while still functioning and operating under the same parameters as the HĒCO Gearbox with No Speed Pickup Sensor (10009010), and it's compatible with most controllers. Time is money in your pocket when choosing the HĒCO Gearbox with Speed Pickup Sensor.

 **IMPORTANT:** For more information on the Display Controller and its advantages, please contact Sonny's Sales Department.

 **DANGER:** Always Shutoff All Power to Conveyor and/or Equipment Before Starting Any Install, Maintenance, Service or Repairs. Failure to do this may result in personal injury, death, and/or dismemberment.

**The Innovative Standard**

 HĒCO Gearbox **WITH** Speed Pickup Sensor Part # 10012626

**Factory Precision Install**

**Ready to Use with the Display Controller**
